Challenge Name: Fr1endship Forever
**Category**: OSINT
Difficulty: Medium
Developer: Aman Jain

Description: This is going to be a double hunt…

My childhood Fr1end James posted something about the project he made on his socials
(just to flaunt). Today is our submission day and my Fr1end James is absent. Yesterday
When we met him, he told me, "Mark can you submit my project also with yours, as I will
Be going out of the city tomorrow morning."
He forgot to tell me anything about his project. He is not even picking up my phone.
Help me find him and of course his project.
